Subject: HISPANIC STEM AWARENESS DAY

The City of Miami Police Department will be partaking in STEM Awareness Day along with other bilingual hi-tech companies, educators, and Hispanic civic groups tomorrow, May 21, 2016, at Miami Senior High School, located at 2450 S.W. 1 Street, from 8:30 A.M. to 1:00 P.M.

Miami Police strongly believes that today's youths and their families can benefit from the variety of local exhibitors that will be present to display their insights on the different fields, such as Forensic Sciences, Public Works, Applications, and Creative Technologies.

The objective of STEM Awareness Day is to enlighten Hispanic students and their families of the rapidly changing technological workforce.

STEM Awareness Day will be made possible thanks to the Brinker Educations Initiative, a project of the Harry S. and Mary Ellen Brinker, Jr. Foundation, Inc. (501c3). The Brinker Foundation is dedicated to advocacy and college scholarship fundraising for Hispanic and Latino students who excel in Science, Technology, Engineering and Mathematics (STEM).

Media is invited and encouraged to attend.
